

PREPARATION PROJECT OF THE SENIOR NATIONAL TEAM FOR THE 2024/2025 SEASON

The 2024-2025 season is the post-Olympic one, which we firmly believe will continue the trend of top competitions. The season schedule will include the following top events: in December, the SCM World Championships in Budapest, Hungary, in July, the LCM World Championships in Singapore and the Summer World University Games in Germany.

The criteria for inclusion in the national team remain the same as in previous seasons, i.e. 830 points.

The criteria for the TOP TEAM remain 860 points, but the national team is NOT divided into A and B teams.

We are one national team.

1. NOMINATION AND COMPOSITION OF THE SENIOR NATIONAL TEAM

Swimmers nominated for the senior national team for the 2024/25 season swam a performance of over 830 points within the period from 01.01.2024 to 31.08.2024.

3. TRAINING SEASON 2024/2025

1) Swimming tests

Swimming tests are an important part of the training process however, they will not be managed by the national team, but by individual personal coaches, who may or may not submit the tests for consultation or just as a demonstration.

2) Electronic training diary (ETD)

According to the decision of the ČSPS executive committee, swimmers of the senior national team must fill out the Electronic Training Diary (ETD) regularly, every day. Of course, that the ETD itself won't improve the swimmer's performance. But if swimmers and coaches fill out the training data honestly and consistently, it will bring significant progress not only in evaluating the training season and drawing up plans for the next season, but also in the ongoing management of the training process. Recording training sessions and evaluating the work done, along with related tests and topped off with control competitions after each mesocycle, will allow the coach to assess whether the swimmer has done the work they planned. If all components involved in the swimmer's performance and all data related to the swimmer is recorded in the ETD, a unique sheet of the swimmer will be created with their history, performance and an overview of training and competition data.

3) Preparation plans:

The personal coaches of national team members are obliged to send their training plan for the 2024/2025 season to the national team coach (petra.skabova@czechswimming.cz) by 02.09.2024/28.02.2025. The plan can be submitted for the entire season, or only for the winter part and then later for the summer part by the end of February 2025. Alternatively, the summer part can be changed to this date. Structure of preparation plans:

- setting main goals for the season
- training camp plan with their main content
- plan of control competitions
- individual plan of possible nomination starts for WC25 2024; WC 2025; SWUG 2025

4) Joint events

ČSPS compensates the following for national team members:

- initial national team meeting in Prague
- Open Championship of Belgium, national team competition (or nomination) for WC25
- Training camp (TC) Thailand 1-2/2025
- acclimatization TC before the WC in Singapore (approx. 8 days)
- one start at an international competition in the period 3-6/2025 according to the personal coach's choice (maximum amount of 35,000 CZK per swimmer), only one swimmer will be paid for, the allowance can be used for a coach or the service of, for example, a physical therapist or a fitness coach, it is mandatory to start for the Czech Republic
- joint preparatory camp for participation in the 2nd round of the Czech Cup
- participation in top competitions for nominees
- ČSPS will also pay for swimming equipment according to approved criteria

Initial national team meeting

The national team meeting is mandatory for all members and personal coaches (does not apply to members staying abroad for an extended time, see point 2) and it will be held from Sunday 1st until Tuesday 3rd September 2024 in Prague, Grandior Hotel Prague. The preparation project and the requirements of the national team will be presented at the meeting. So that national team members do not lose the opportunity to train, 2 training sessions in Podolí will be planned and paid for. During the meeting, it is mandatory to sign a contract, take over the equipment for the season according to the ČSPS guidelines, get to know the members of the coaching staff, take promotional photos for the national team's needs and the union and the necessary accessories. It is not mandatory to stay at the meeting until Tuesday, just a possibility. The most important and pivotal day will be Monday, September 2nd. National team members will report the length of their stay and whether they will be staying at the hotel to the national team coach by 30.7.2024. The program is attached to the project.

Training camps (TC)

- TC Thailand 26.1. – 18.2.2024, Phuket, all national team members, volume swimming training. The location is chosen due to the similar climate to the WC 2025. If a national team member wants to extend their stay at the TC or start it earlier, they will arrange the extension themselves.
- possibility of having sparring partners at TC – national team TC must be of high quality, therefore the number of lanes and swimmers must be well calculated so that everyone can train comfortably. However, this does not mean that sparring partners cannot be invited to TC. A sparring partner must be a participant in top competitions (EC25, WC25, EC50, WC50) or must have scored at least 825 points in the period 1.1.-31.8.2024. The draft approval is subject to the national team coach and the final approval to the Swimming Section Committee. A sparring partner pays for the TC from their own resources. A sparring partner of Czech nationality has priority over a foreign one, who must meet the same conditions as Czech swimmers.
- An approximately 8-day acclimatization stay before the World Championships in Singapore (the exact date will be determined as soon as the exact date of the WC is known). For competitors nominated for the WC without financial complicity.
- Short TC before the nomination competition of the 2nd round of the Czech Cup
- All personal coaches of national team members will be nominated for TCs

Supported competition starts

- Open Championship of Belgium 11/2024
- One competition in the spring season 2025, as chosen by the personal coach and the second round of the Czech Cup spring 2025

Compulsory starts at competitions

- For all national team members, it is mandatory to swim at one round of the Czech Cup in the spring and one round of the Czech Cup in the autumn, as well as at the Czech Nationals in winter and summer, except for competitors with permanent residence abroad (see point 2). The Czech Nationals may be an exception, if they coincide with a top international competition.

5. Cooperation with members of the analytical team

It is highly desirable to continue analysing swimmers at top world, European and domestic (Czech Cup or Czech Nationals) competitions. Given that the records and analyses have been carried out for competitors at the EC and WC for many years and a lot of data is available, it would therefore be necessary to proceed to the next, higher stage, i.e. more active cooperation between the members of the analytical team and the personal coaches.

The goal is for them to work together to find a way to use this data to create some training motifs for race pace training. The participation of analytical team members at the TC will also be welcome, at least for the part where experts can work individually with the swimmers and their coaches (according to the financial requirements of the analytical team and the possibilities of the association).

6. Equipment of national team members

According to approved criteria. National team members are obliged to dress in national team clothing at all representative events, meetings, TCs and competitions, including trips to and from the event.

7. Personal accounts of national team members

National team members who will get 860 points and more by their performance in the period 01.01. - 31.08.2024, will have their personal budget of 50,000 CZK available, which is beyond the support of the national team.

The national team member may use this budget for services, see attachment no. 2, based on submitting the plan to the national team coach

Personal budgets will not be available for national team members that score below 860 points.

A national team member who has more than 900 points in an Olympic event can choose individual training outside the national team in the period from 01.01.2024 to 31.08.2024. They will receive a personal budget, which must be approved by the national team coach and the executive committee and billed according to the criteria set by the ČSPS.

The national team member may use the extra budget only if they fulfill the national team duties, namely properly filling out the ETD and participating in the prescribed races.

8. Rights and obligations of national team members

They are listed in the national team contract, which the nominated members will receive at the initial meeting. The national team contract also includes the obligation to regularly fill out the ETD.

9. Rights and obligations of the ČSPS

They are listed in the national team contract, which the nominated members will receive at the initial meeting.
